Equipment protection and circuits commutation

| Specifications               |                |
|------------------------------|----------------|
| Name                         | Value          |
| Envelope                     | Metal-ceramic  |
| Mass                         | 800            |
| Spark voltage, kv            | 28             |
| Spark voltage, kv Minimum    | 16             |
| Spark voltage, kv Maximum    | 40             |
| Spark frequency, hz          | 3.1            |
| Spark frequency, hz Minimum  | 0.1            |
| Spark frequency, hz Maximum  | 6              |
| Commutated energy, j         | 18512.5        |
| Commutated energy, j Minimum | 25             |
| Commutated energy, j Maximum | 37000          |
| Anode current, a             | 35000 in pulse |
| Life, pulses                 | 1025           |
| Life, pulses Minimum         | 50             |
| Life, pulses Maximum         | 2000           |
